Mr. Harry Brust, Project Manager  
Aslan Construction, Inc  
120 Bunyon Avenue  
Berthoud, CO 020101

Dear Harry,

I am writing to thank you and Aslan Construction for your efforts in the successful completion of the Sandhill Reservoir outlet rehabilitation project. Given the time constraints and the unknowns associated with this design, the project could only have been a success with the owner, engineer, and contractor working as a team.

I appreciate Aslan's attention to detail and your ability for foresee conflicts in the design and get them resolved before they became an issue. Your superintendant Bob McTaggart played an important role in this and always kept the State Engineer's Office well informed of the construction schedule so we could perform our required inspections.

The construction and final product of this rehabilitation project exceeded my expectations.

Thank You,

John Batka, P.E.  
Dam Safety Engineer
