Aslan Construction Inc.  
640 E Eisenhower, Ste. 2  
Loveland, CO 80537

To whom it may concern,

On behalf of Parker Water and Sanitation District this letter is my recommendation for Aslan Construction, Inc. In the fall of 2007 Aslan began construction as the General Contractor on a \$5,500,000.00 Well House and Pump Station. Robert Mactaggart was the Superintendant for the project. Operating on a very tight timeline the project was completed 3 months ahead of schedule in May of 2008. Aslan's workmanship and ease to work with was excellent through the duration of the project. Their ability to supervise their sub contractors and work through adversity, such as poor weather conditions, was equally outstanding. The Regional Well House is now in full operation and the largest well house in the Parker Water and Sanitation District.

Sincerely,

Jimmie Brogger  
Engineering Technician I  
Parker Water & Sanitation District
